One cable carrying 400 wires will go down into the south part of the Second ward. Another carrying 100 wires will go west on Fifth avenue for the Third ward, and still another carrying 400 wires will go north on Summit street to Chestnut avenue and there divide into three smaller cables, one hundred wires going east into the First ward, 100 west into the Fourth ward, and the remaining 200 north on Summit street and at block 800 will go into the northern part of the Fourth ward.

The central office will be equipped with two new switchboards of the latest design for the use of the city exchange, and one new toll board that will be entirely separate from the exchange board.

Columbus, Kas., Oct. 20.—A plan is being perfected to close all business housest on Wednesday of next week and take every able-bodied man out on the north road to do a day's work, hig or little, according to his ability.

Justice Newton's court on the charge of trespassing and shooting firearms on the premises of F. J. Ayers, a farmer residing east of the city. Mr. Ayers swore to the complaint himself, and the boys were all arrested by Deputy Constable J. D. Peters. The alleged disturbance of the peace took place Sunday, the boys having gone into the country for a day's sport. Justice Newton fined them \$1 and costs, \$7.35 in all. An execution was issued and they were given until Saturday to raise the required amount.

Fort Riley. Oct. 20.—The last problem of the maneuvers is being solved directly north and close to Junction City on the reservation last night. It began Thursday afternoom and continued until daylight this morning.

From Fort Riley and Junction City the position of the opposing force can be located by the various colored rockets being sent up as signals to the different parts of the forces.

Jointists Arrested at Galena. Jointists Arrested at Galena.

Galena, Kan., Oct. 32.—Galena is experiencing another dry spell. Five "jointists," John Norton, Charles Younger, J. J. Donepoo, Ed Jackson and William Dwyer, better known as "Rudweiser Bill," were arrested on indictments from the grand jury now in session at Columbus.

It is understood many more "jointists" will meet the same fate. Many of the Galena joints closed on their own accord as soon as the grand jury convened and the proprietors sought quarters elsewhere. There is not a "joint" running in Cherekee county and it is safe to predict that all will stay closed as long as the jury is in session.

Man for man, the two teams size up very evenly, and many declare that a careful analysis gives the Gophers more than a shade the better of it. Thus Capt. Rogers will play against Longman and the old Carlisle veteran ought to have an easy time protecting his position. Rogers can be "boxed," was, in fact, "boxed," twice by Iowa, and was in a predicament until Haifback Davies came to his assistance.

was in a predicament until Haifback Davies came to his assistance.

Webster at left tackle will play against the formidable Maddock and will probably be played off his feet, although Webster is becoming a very fair defensive player. Warren and Thorpe both veteran players, are expected to be superior to any of the Michigan guards. Both are big and strong and had years of line work before coming to the university. It is believed that the guard positions are as strong as they were last year, with "Little Johnny" Flynn and Smith, who certainly held their own against the Wolverines of last year, while Michigan is admittedly weaker at these positions. It is fair to both Strathern and Gregory to say that they will divide the honors at center. At Minnesota no superior to Strathern is recognized, but Gregory is very strong.

180 pounds of muscle and fight, is one of the stars of the year in running the team and in carrying the ball. O'Brien's injury, a wrenched knee, is not expected to keep him out of the game long.

Hampiond at fullback, clearly outclasses Currant, being, in fact, about 25 pounds heavier and a great player without question. Davis and Irsfield are the finest pair of backs Minnesota has ever had, whether that be saying much or little. That they are superior or even equal to Heston and Graver is not con-

The question of why one man succeeds and another fails, is a problem that has puzzled philosophers for centuries. One man attains riches and position, while his neighbor who started with seemingly the same, and better opportunities, exists in poverty and observity. No man can win success who opportunities, exists in poverty and obscurity. No man can win success who is suffering from an irritating and nerve racking disease and the man who has the qualities of success within him, would be quick to recognize this fact and seize the best remedy to eradicate the trouble.

A JOLT ON THE BAR. Sent Eddie Santry Down and Out in Thirtsenth Round.

Anaconda, Mont., Oct. 20.-Aurella Herrera, the lightweight Mexican pugilist, last night knocked out Eddle Santry of Chicago, in the thirteenth round of what was to have been a twenty round go. Herrera had been the favorite in the betting until the first five rounds, when Santry's backers offered odds on their man, with few takers. Santry had all the best of the fight up to the last round, breaking through the Mexican's peculiar guard as no other fighter has yet been able to do. Santry forced the fighting throughout, and was Herrera's superior in science, but seemed unable to deliver a knockout, and while mixing it fiercely in the thirteenth round, received a terrible short arm jolt behind the ear and went down and out. Dick Bernard, the heavily backed favorite, was hopelessly cut off at the eighth pole and had no chance thereafter. English Lad run a wonderful race, beating a field of ten. Just before reaching the half-mile pole, however, he began to move up and fairiy ran over his Seld. He turned for home in fifth place, then, under a strong ride, forged to the front stradually and won going away with half a length to spare. Huzzah backed from 50 to 1 down to 40 to 1, won the fourth race by a head from St. Tammany, with Grand Opera third.

Those who have read the novel, "Lady Audiev's Secret." will doubtless remember how Lady Audiey, wishing to destroy the men who alone share her guilty secret, sets fire to the Castle Inn. When the present dramatic version was being made it was suggested that his burning be done "off," and only a reflected glow represent the conflagration on the stage. This, however, did not satisfy George Wessels, who is starring in the play, and he and other masters of stage craft set to work to discover some means by which other masters of stage craft set to work to discover some means by which the incendiary work of the guilty wo-man might be actually presented be-fore the audience. Their efforts were crowned with success, and the result is that those who attend the perform-ance of the powerful play at the New Crawford on Tuesday will be able to see a stage effect that is realistic.
